

# **IMPRESSCARE**

### PRODUCT INFORMATION SHEET

#### DESCRIPTION:

**Impresscare** is a highly concentrated cleaner specifically designed for cleaning of polished floors and may be used for cleaning of any hard surface that is not adversely affected by water.

**Impresscare** is a patented Positive Emulsion cleaner with unique properties that emulsify greasy soils and hold them in suspension without redepositing over other areas of the floor or surface being cleaned. Suitable for manual or machine cleaning tasks.

**Impresscare** is the ideal product for everyday use and maintenance of polished floors. As a chemically neutral cleaner it will not have a detrimental effect on cross-linked floor finishes.

### **FEATURES AND BENEFITS:**

- Excellent for cleaning polished floors
- Multi use cleaner suitable for any surface not adversely effected by water
- Has unique properties that emulsify greasy soils
- Will not have any detrimental effect on cross-linked floor finishes.
- Suitable for manual or machine cleaning tasks.

### **TECHNICAL INFORMATION:**

**Appearance** Clear Green Liquid

 $\begin{array}{ll} \textbf{Odour} & Lemon \\ \textbf{pH} & 8.5-9.5 \\ \textbf{Specific Gravity} & 1.029 \pm 0.005 \\ \textbf{Percentage Volatiles} & 93.0-93.5\% \\ \textbf{Solubility in Water} & Infinite \\ \end{array}$ 

## USE:

Prepare the desired cleaning solution strength and apply to the surface by the most convenient means – automatic floor scrubber, mop and bucket or spray and wipe.

Dilution Rates: Manual or Machine cleaning

Light Soiling 1 Part to 80 parts water. Medium Soiling 1 Part to 40 parts water. Heavy Soiling 1 Part to 20 parts water.

Spray & Wipe Cleaning 1 Part to 10 parts water.

Dilution rates may be increased where heavy dirt conditions prevail.

## SAFETY:

First Aid

**Eyes:** If splashed in eyes, flush with water for 15min. Seek medical advice.

**Skin:** Wash affected area with soap and water.

**Inhalation:** If mists are inhaled, remove patient to fresh air. Seek medical advice. **Swallowed:** Do NOT induce vomiting. Give milk or water to dilute. Seek medical advice.
